

ENTRYWAY / FLOOR COVERING

PARK PLACE ROLL-UP ENTRANCE MATTING

This attractive roll-up mat combines the ultimate in utility and durability. Aluminum rails are connected and cushioned with a thermoplastic hinge. Rails are fitted with carpet or vinyl strips. For positive anti-slip protection, specify abrasive surface in place of carpet or vinyl.

- Thermoplastic hinge - reduces metal to metal noise typically found in other mats
- Recess or surface applications
- Replaceable carpet and vinyl strips
- Custom sizes and shapes

FRAMES

FOR SURFACE USE

- 1) VINYL (BROWN OR BLACK)
- 2) ALUMINUM (MILL OR ANODIZED)

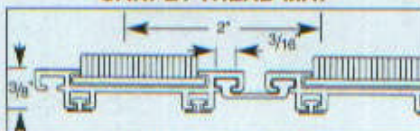

FOR RECESS USE

- 1) ALUMINUM (MILL OR ANODIZED)
(for installation into new concrete)
