

# Industrial Smooth™ Anti-Fatigue Mats

- Our new Industrial Smooth Anti-Fatigue is made from the same exceptionally durable compound as our Diamond Plate, but features a fine satin finish that allows for torque-free movement at industrial workstations.
- Anti-Fatigue Mat flexibility is only one consideration, the next is freedom of movement. Industrial Smooth Anti-Fatigue Mats facilitate the 180-degree to-and-fro movement required at service counters and assembly lines while avoiding the stress on knees and ankles that result when the same movements are made on mats with a molded non-slip surface.
