Are your mats becoming a safety hazard? Do the mats enhance your image?

Cactus Mat Custom Fit Mats

Our mats look better because they can be custom fit around revolving doors, corners, pillars, furniture, elevators, hallways and entrances. Rental mats have standard sizes without custom options.

Maintenance

Cleaning mats can easily be added to the maintenance department responsible for cleaning floors. This helps you recognize when a mat is ready to be replaced, preventing potential lawsuits and keeping dirt off the floor. Over-laundered rental mats will come back with edges missing, nylon patches or ripples/wavy edging.
