

CUTTING BOARDS

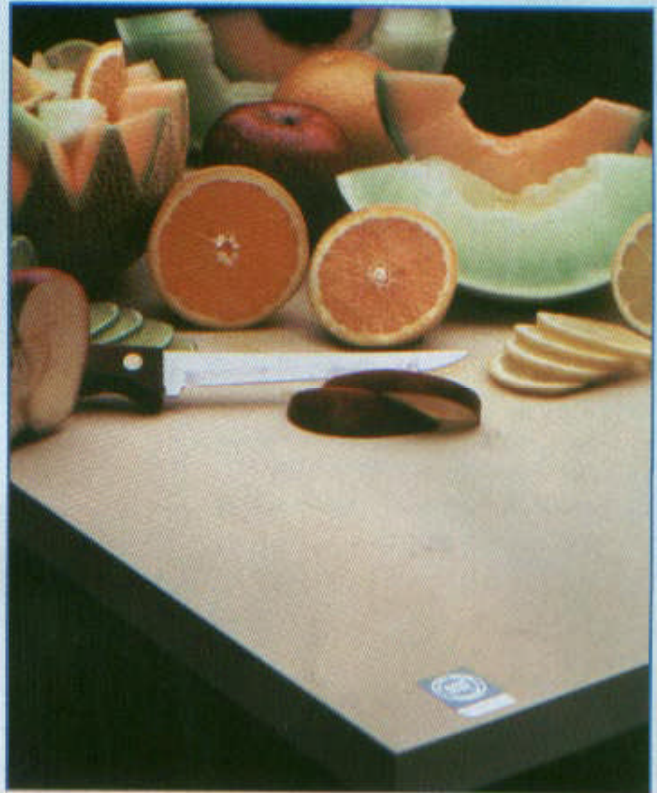

RUBBER-CUT RUBBER CUTTING BOARDS

The most durable cutting board available. Unlike wood, it will not crack, chip, splinter, swell, absorb liquids, retain odors or harbor bacteria. The rubber compound is uniquely resilient, allowing the board to "give" under the pressure of a knife blade, protecting the board's surface while preserving the knife's edge. Should not be used with cleavers.

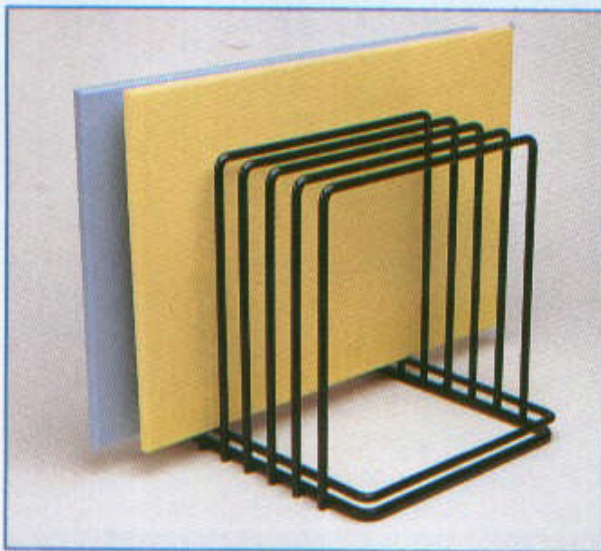

- NSF CERTIFIED, USDA ACCEPTED
- HIGH DENSITY RUBBER
- PRESERVES KNIFE'S EDGE
- REVERSIBLE
- NON-POROUS
- NON TOXIC
- NON ABSORBENT
- CAN BE RESURFACED BY SANDING

COLOR: Beige

NOTE: Please refer to cleaning and care instructions on page 60.
